## EXECUTIVE

Over a 5-year career in software Engineering, studying in Wollo University Kombolcha institute of technology, I had the opportunity to work with many digital institutions when I was studying. So I was able to collaborate on many things. In this way, I was able to make a good impression on myself in the companies. Have played an essential role in developing and improving a wide range of digital products and services across different digital companies.

## LANGUAGES

Amharic

english

## HARD SKILLS

PHP

Phyton

Javascript

Laravel

Bootstrap

React js

C#

Mysql

## 🎓 EDUCATION

**2014**  **Bachelor degree in Software Engineering**
Wollo University(WU) KIOT

## 💼 WORK EXPERIENCE

**02/2013 - 04/2013**  **Interniship programme in Appfactory.**

Appfactory targets unemployed and underemployed youth across Africa and helps them gain skills through on-the-job training with a Microsoft partner organization. Participants are placed in one of these companies for three to six months and choose between a training path in marketing, sales or technical skills. So I have been trained in an internship program for three months, after that we worked as a team on a software that eases administrative tasks for ethio insurance company Kombolcha branch.
